Company Mission

RECURSOS Y SOLUCIONES COMERCIALES, S. DE R.L. DE C.V. (RESCO)

Corporate Mission and Strategy is providing the *dependable, efficient, reliable* sales and deliveries of fuel commodities to its Customer's and commitment of "On-Time" service in a mission critical environment that our Customer's depend upon for their business requirements.

RESCO is a **Mexican Company**, based Villahermosa, Tabasco, México. Corporate offices are located in Macuspana # 110 Fraccionamiento C.F.E, and **RESCO Group** has offices too in N. Myrtle Beach, South Carolina; 3934 Cypress Creek Suit 201, Houston Tx 77038 and with Virtual Offices were the client's need us., **RESCO GROUP**

Operations relocating to Fort Worth, Texas in late 2017 to ensure our Customer's with strategic advantage for fuel distribution throughout Southeast and the Gulf of Mexico (GOM) regions of the United States.

RESCO GROUP continues to pursue its purchasing policies of sourcing fuel products directly from its Corporate Account with SHELL® TRADING U.S. COMPANY (STUSCO) Refineries in Houston, Texas, and Norco, Louisiana as a MDN TIER I Supplier with our primary goals of not only solidifying our working relationships with our Customer's, but maintaining a strong, positive, and strategic goal of successful operations.

Who We Serve

RESCO GROUP provides *finished* petroleum products to its Customers base which primarily consist of Commercial Truck Stop Retailers, "Fixed Base Operations" (F.B.O.), Commercial Vessel Operators, and Fuel Reseller's with the future strategic advantage of the multiple Storage Terminals locations presently in the master planning stages to be located in Southeastern U.S.

RESCO GROUP understands the commitment necessary in providing dependable, efficient, and reliable “*on-time*” fuel sourcing for Chain-Supply and Procurement alike with demands in the ever changing commercial and industrial environments of “*Just-in-Time*” fuel sourcing. We are “*committed to excellence*” in providing fast and efficient service to our Customers. We are ready, willing and able to serve our Customer’s whatever their needs arise for Fuel Products.

Due to the aforementioned and in view of the growing market needs, **RESCO** has partnered with companies such as **OVC**, **REACHINNOVATION**, **adi3tek**, **PetroM** & **SEABOARD-STANDARD GLOBAL ENERGY**. Where the **RESCO Group** obtains the best advantages for its customers and consumers.

Governance and Ethics

RESCO GROUP has a long-standing commitment to comply with the law whenever we operate and conduct all business activities in accordance with the highest ethical standards. Maintaining this commitment is “mission critical” for our continued success in the petroleum marketplace worldwide.

Our governance is intended to serve our customers, our community and our supplier vendors by maintaining corporate systems of controls that ensure the highest levels of responsibility, integrity and legal compliance throughout our business. Our Codes of Business Ethics and Conduct sets forth our expectations of our directors, employees contractors and other individuals who represent or work on behalf of **RESCO GROUP**.

Accountability for Sustainability Issues

The integrating sustainability issues for the day-to-day operations of **RESCO GROUP**, along with its project development and decision making processes are held to the highest accountability. Our goal setting process and report progress are made to the appropriate directors of our board of directors. All members of our senior management have the final responsibility for developing our corporate strategy, reporting company performance, and assisting our company’s with implementation of sustainability related issues.

RESCO’S GROUP Board of Director’s oversees all public policy issues for our operations, and specific matters that may impact our company’s reputation as a corporate citizen.

This committee makes recommendations to the board, and monitors compliance with the company’s programs and practices regarding health, safety and environmental protection, including water management, and business operations in sensitive countries, government relations and political contribution and corporate advertising.

Safety and Occupational Health

RESCO’S GROUP primary goal is to eliminate all injuries, occupational illnesses, unsafe practices and incidents of environmental harm from our operational activities. It is our policy that our business is never more urgent or important that we cannot take the time to conduct our work safely in a more responsible manner.

Our People, Safety, Integrity, Responsibility, Innovation, and Teamwork inspire our actions and confirm our commitment to making safety our “first priority.”

Our Leadership

Our leadership is comprised of individuals that have the experience and expertise in the oil & gas industry as to making mature, skilled and informed decisions to best execute our long-term mission strategy of **RESCO GROUP**.

- ❖ **Juan Pablo Ruiz B. Chief HSE Officer & Commercial Director** - Engineer Ruiz has 19 years of experiencing from the Turnaround Management Industry, with primary focus in the manufacturing sector. Over a period of 12 years, Eng. Ruiz has been focused in the energy sector operating in the Mine Industry, first as a Consultant, and then as a Partner. For the past 9 years Eng. Ruiz has focused on the finished petroleum products industry first as a “Re-seller of Fuel Products on both the buy-side and sell-side, and now as a Fuel Supplier for Diesel Fuels, Jet Fuels, and other Fuel products. The team of Eng. Ruiz has maintained its working relationship with SHELL® TRADING U.S. COMPANY (STUSCO) since 2013, and **RESCO GROUP** is presently in “good-standing.”
- ❖ **Elias Garza, Chief Legal Counsel** advises **RESCO GROUP** leadership on matters of commercial law, corporate governance, regulatory compliance, and risk management. He provides **RESCO GROUP** legal counsel, drafts its petroleum contracts, opines and conducts litigation related to those contracts, manages its regulatory compliance, and structures **SSGE**'s domestic and international transactions.
- ❖ **Rick Brazelton, P.M.** - Mr. Brazelton is responsible and operator of **RESCO GROUP** independent Fiduciary Escrow Officer and Program Manager, who is responsible for all escrow accounts and closings for **RESCO GROUP** fuel sales, and as its third-party fiduciary, is responsible for expediting and facilitating all scheduled Closings, and facilitating all Refinery fuel injection schedules for the “Sale” and “Purchase” of finished Petroleum Products. Mr. Brazelton works directly with our commercial banks' compliance departments to ensure (i) all Commercial Bank Compliance Directives are faithfully executed in each transaction (ii) the confidentiality of proprietary commercial financial information is maintained throughout, (iii) that transaction information is secure between all parties, and (iv) each transaction is successfully closed, with each of these processes meeting all Compliance Directives of the USA PATRIOT ACT.
